

Park Derochie Coatings Ltd.

Project Profile: CNRL Secondary Upgrader

As a direct result of the successful completion of our work in the Froth Treatment Plant, CNRL in conjunction with Berry Y&V Industrial Contracting awarded Park Derochie a significant portion of the remaining insulation work in the Secondary Upgrader facility.

CNRL recognized our ability to control costs while maintaining tight schedules in their decision to award this work to Park Derochie.

Park Derochie was able to supply additional resources to another contractor who was unable to provide sufficient manpower levels to achieve critical path milestones.

Project Highlights:

- Over 125,000 hours expended with zero LTAs
- Crew size in excess of 200 workers
- Project completed safely & on time
- Project in excess of \$9.0 million
- Over 1,000 soft removable covers supplied & installed
- Over 100,000 lineal feet of insulation supplied & installed
- Over 10,000 square feet of equipment insulation supplied & installed
 - Calcium silicate & mineral wool insulation
 - Aluminum & stainless steel cladding
