

Park Derochie Coatings Ltd.

Project Profile: Suncor Voyager Storage Tanks

Park Derochie was awarded the insulation contract for six (6) storage tanks for the Suncor Voyager Project. The project involved the supply of composite panels which were installed using a track lock type of system.

The bulk of this project was completed over the winter months during severe cold temperature combined with heavy snowfall - well over the annual average of 172 cm. Park Derochie supplied a composite sheet metal and insulator crew and, in spite of the brutal weather conditions, the work was completed safely, on time and within budget.

Project Highlights:

- Over 43,000 hours expended with zero recordable injuries
- Crew size in excess of 20 workers
- Project completed safely & on time
- Project value in excess of \$3.5 million
- Over 356,000 square feet of composite panels supplied & installed
